-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 8-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no antecedent basis for "cam chamber" in claims 8 and 14.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 8-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tuggle (US 4,286,675) or Kovacs (DE 3335962), in view of Takada et al (JP 61-39416).

Tuggle discloses a light weight engine carried by an operator for use with a power tool. The particular power tool (trimmer, saw, blower) is deemed a matter of design choice. However, Tuggle discloses only a two cycle engine. Kovacs proposes to use a four cycle engine for a chain saw. Takada et al disclose a four cycle engine comprising a cam 17, a valve cover 15 on the cylinder head, a splasher 23 that directs lubricant to the recited moving parts of the engine via oil passages 24, 25. Takada et al disclose that an advantage of the invention is a lubrication apparatus which can lubricate the rocker arm chamber in a reliable and efficient manner with a simple and compact structure. Since this is important for a portable operator carried power tool, one of ordinary skill in the art would combine the engine of Takada with the tool of Tuggle or Kovacs.
